Very disappointed in the decision to ban ride sharing. It's more of a safety concern than a money issue for me. Often times taxis can take hours and you have no idea if they're actually on the way. Uber provides safe timely rides to and from entertainment districts all over the state. To ban ride sharing is going against the capitalist ideals that makes this the greatest country/state in the world.

Good evening!

After relocating from New England to Charleston SC 6 months ago, I am here to say that Uber is the most convenient and safe way of travel for me and my friends.

In a city where cabs are nearly impossible to get at close of bar business, uber has provided us with safe rides home. For fear of not being able to secure a cab, I have know many friends opt to foolishly drive themselves home after too many libations. This is clearly a reckless and foolish decision. Uber has created a safe and convenient ride for us.

Uber has created the type of platform millennials have been seeking for years. In a state where public transportation is severely lacking, I can't think of a valid reason not to support Uber. Of course, you set the rules and regulations and uber should not be exempt from that. But please don't take the option away from the people in the state who just want to make safe decisions.

Please change the lens at which you're viewing this and understand that it's helping thousands of people across the beautiful palmetto state. I'm sure data will show a reduction in drunk driving and dangerous outcomes (people waiting downtown at 2am for a yellow cab that will never come).

Be a hero and understand that #sneedsuber.

Sincerely,

Tyler Davis

Hey guys --- why shut down uber without the approval of your voters? I challenge that your decision is short sighted and rather, you ought to allow residents and tourists to our state to benefit from this service. It takes drunk drivers off the roads, increases business profits in areas that arent walkable, and provides a convenient, cost effective public transit service in a state that has significant work to do in the realm on public transit.

You can email the explanation of your actions and the reasons for the cease order to me by replying to this email.
